

El Barrio Popular Education Program

(EBPEP)

The El Barrio Popular Education Program was a subset of Centro's Language Policy Task Force. The program's goal was for adult students to develop their reading, writing and computing skills in Spanish while learning English as a second language. It began in 1985; two years later the program was incorporated as a 501(c)(3), not for profit organization, eventually ending its operations in the 90's.
